2. **Chesapeake Bay Program Update**

Ms. Whitney Katchmark (HRPDC) will highlight the pertinent issues, including information regarding the historical BMPs that were submitted to DEQ.

3. **Legislative Update**

The new General Assembly session convenes on January 13th. Ms. Katchmark will lead a discussion on the latest legislative updates, with a focus on SLAF appropriations.

4. **EPA Rulemaking – MS4 Phase II Remand**

The proposed rule was published in the Federal Register on January 6, 2016. The rule was drafted to address issues from the 2003 remand, which stated that the legal standards are not met and that public involvement was inadequate. Three options are proposed in the rule:

1. Traditional General Permit approach (more detailed permit)
2. Procedural approach (the “two step”)
3. State choice approach

The Workgroup will discuss the remand and whether regional comments should be submitted. Comments are due by March 21, 2016.

The National Municipal Stormwater Alliance (NMSA) is a new national organization comprised of and for MS4 permittees. One of their first orders of business is to draft comments on the rulemaking. The HRPDC staff will brief the Workgroup on the background and purpose of the organization.

BMP Maintenance and Inspection Training – Ms. Barbara Brumbaugh and HRPDC staff recently spoke with the Chesapeake Stormwater Network (CSN) about providing local post-construction BMP training.

6. **Hampton Roads Stormwater Forum**

CSN has funding from NFWF to lead two regional stormwater forums, and they have selected Hampton Roads as one of the regions. Ms. Cecelia Lane and Mr. Tom Schueler spoke with HRPDC staff about potential topics, and staff will update the Workgroup.

7. **Other Matters**
